Cátedra Jean Monnet  
Project Management  
Methodology - OpenPM2

## CV German Martinez

On this website you can find additional information about Professor Germán Martínez Montes, holder of the Jean Monnet Chair. "**PM<sup>2</sup> by European Commission.**

**Open, free and common project management framework for all European institutions, companies and citizens. - PM<sup>2</sup>EU+".**

## Academic Positions and Activities

- Full professor (Engineering Project) in the University of Granada and Jean Monnet Chair Holder (2020-2023)
- Associated professor, half-time associate professor at the University of Granada and Lecture in an associated centre of University of Wales.
- Vice-Dean of the Faculty of Civil Engineering and Facilities & Infrastructures General Manager of the UGR (all of this position are related to project management knowledge and skills).
- Currently Head of Department of Construction and Engineering Project.
- Technologist accredited by the National System of Scientific and Technological Evaluation (SINECYT) of Mexico.
- International Advisor for the implementation of the Civil Engineering degree in the National Intercultural University "Fabiola Salazar Leguia" of Bagua (Peru)
- External Evaluator of Civil Engineering Postgraduate Programs according to concert with the CONACYT of Paraguay.
- Actively participation in two Marie Curie Actions and principal investigator (PI) of more than 50 research and transfer projects.
- Supervisor of 8 PhD Thesis.
- 6 books and more than 100 scientific and professional papers in leading journals and international congresses. Most of them are related to Project Management, Risk Management and Procurement Systems.
- Reviewer of international journals like Safety Science, Construction & Renewable Sustainable Energy Review.
- Member of the Spanish official translation team of the Open PM2 (European Commission).

## Teaching Activities

- Construction Project.
- Project Management.

- Project Management Methodologies.
- Risk Management.
- Procurement Procedures.
- Environmental Engineer.

## Professional Activities

- External advisor of several Institutions, Enterprises and Public Administrations.
- Project Manager & Founder of Vicenor, S.L. (Spin-Off of the University of Granada);
- CEO of Andaluza de Señalizaciones, S.A. (Highway Management and Maintenance);
- Project Engineer at Urbiconsult, S.A. (advisory enterprise);
- Maintenance Engineer at GRUPISA, S.A. (Highway Management and Maintenance) and
- Project Manager at Local Government (Diputación de Granada).

## **Development Cooperation - Project Esperanza**

Development cooperation is one of the best examples of generosity and collaboration that we can provide from our privileged position.

For many, many years, and thanks to my aunt Aurora, I have felt a special connection to the African continent, to those who live there and who desire to improve their lives.

After a few years without getting involved in any project because of Aurora's death, destiny knocked on my door. Belén, a graduate student of the UGR, spoke to me with a sparkle in her eyes about what she had achieved and how much could be done in

terms of cooperation. I could do nothing but smile, touched!

I made her an exciting long-term proposal called "Project **ESPERANZA** (hope)". I wanted to collaborate and help the African continent, where a relative of mine, Aunt Aurora, had dedicated her whole life to helping others.

What does the Hope Project consist of?

It consists of raising enough money each year to finance a solidarity project in Africa. For how many years? As many years as the word hope has, nine. In other words, nine letters, nine years, nine projects. We focus on financing basic infrastructures: wells, pipes, sanitation, etc., but also schools, maternity wards and any other way of helping (there are a thousand ways to help).

If you really learn more about this amazing project, please, follow this link:
