PM² Project Management Methodology

European Commission

About us

Project Office

Governance

Verifying the right set of rules, procedures and policies are in place.

Onboarding

Ensuring a smooth integration of newcomers.

Reporting

Overseeing a tool is in place to provide a high-level overview of project status.

Centre of Excellence in PM²

CoEPM²
European Commission

PM² methodologies

Develop and support

Publications (Guides, Artefacts, Tools and Techniques)

Training

PM² and PM² Agile Essentials on the Interoperable Europe Academy

Community of Practice (PM² CoP) – 5 annual half-day or lunchtime events

PM² Portal

Establishment and Coordination of an EU wide PM² Network

European Commission

PM² Publications

Originally based on promoting and supporting adoption of the PM² Methodology, the **CoEPM² has expanded its scope:**

- PM² (EN/FR/ES/IT)

- PM²-Agile (EN/FR)

- PM² Programme Management

- PM² Portfolio Management

PM²

The European Commission's official Project Management Methodology

European Commission

Project Management Methodology Goals

1 Improved governance

2 Improved project management

3 Delivery of project outcomes

4 Consistent reporting

**5** Reduced risks

European Commission

The Challenge

Efficiently manage significant investments in projects

Manage external providers running outsourced projects

Effective collaboration between different stakeholders

Work closely with Member States & ensure grants deliver maximum value for Europe

Respect the specificities of the public sector (risk adversity, audit, procedural, hierarchical, forms/templates etc.)
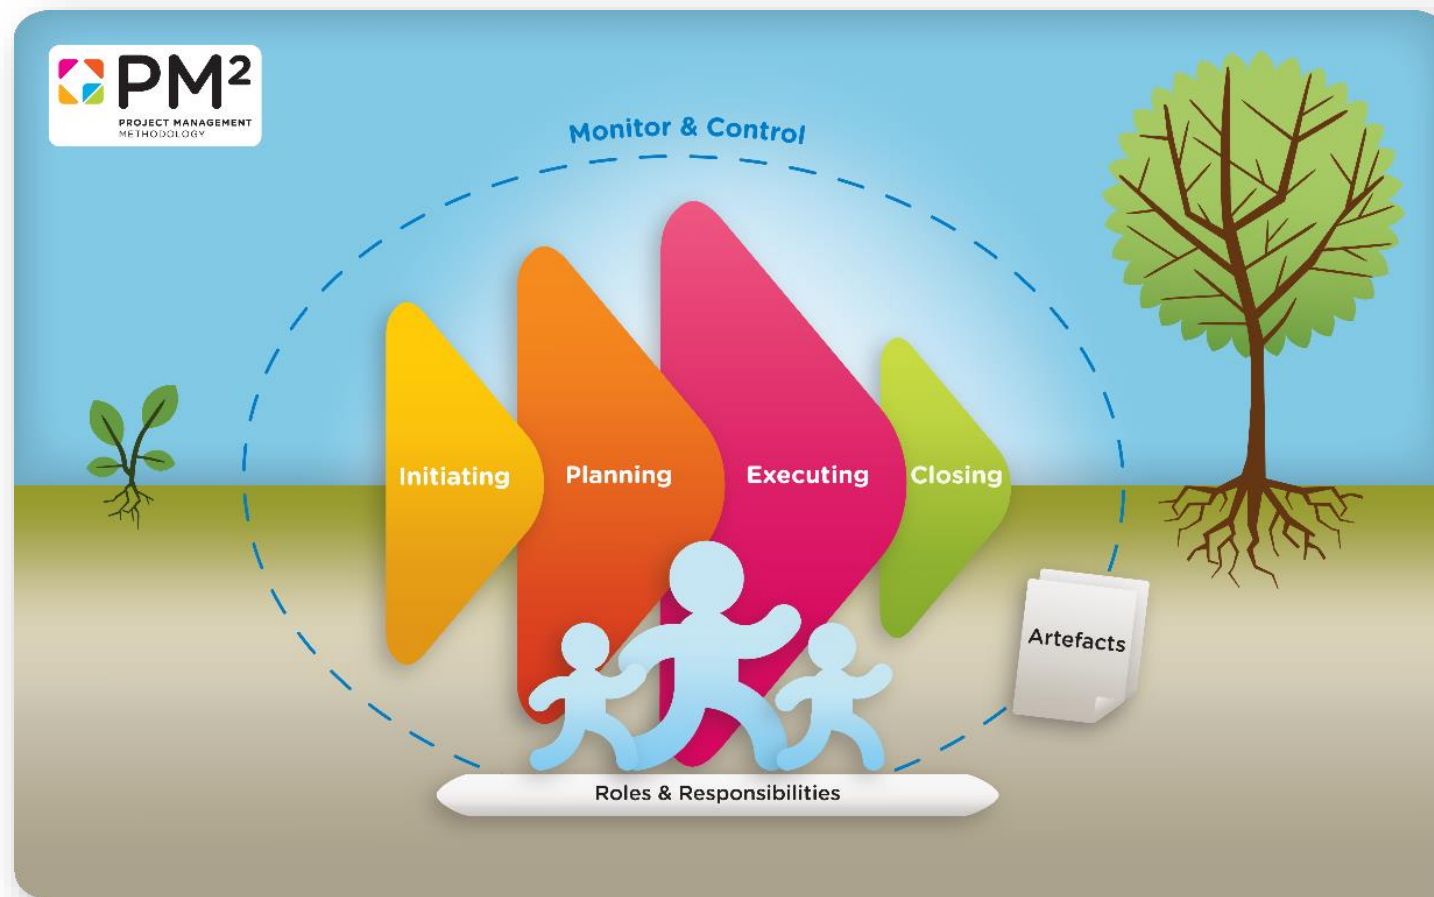

European Commission

The PM² Initiative

EU Institutions

EC

Service Providers

Member States

EU Citizens

One common project management methodology open to all EU Institutions, Member States, Service Providers, and EU Citizens

European Commission
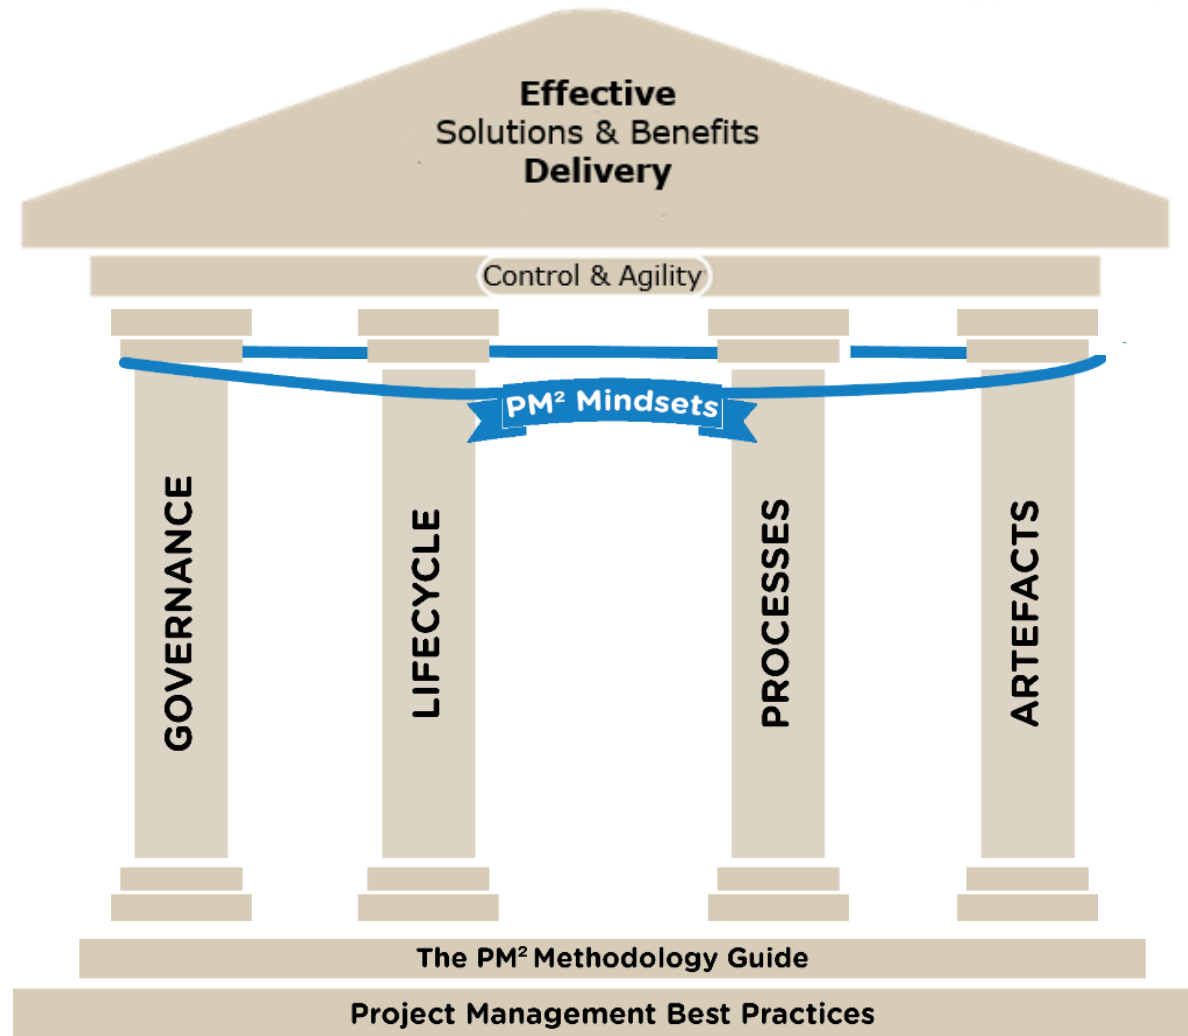

Reasons to run projects

Problem	Solution	Project	Output	Outcomes	Benefits
+ Context	+ Capabilities	+ Effort	+ Use	+ Measurement	

PM² Overview

The House of PM²

Why PM²?

Open – available to download and use immediately

Complete – Guide, Artefacts, Wikis, pan-European community, sponsored by the EC

Mature – 15+ years of successful use in diverse environments

Inclusive – incorporates globally accepted best PM practices

Holistic – with Agile, Programme, Portfolio Extensions & powerful Mindsets

Common – Same vocabulary for cross-institutional and cross-regional initiatives

Lean (not simplistic) – which ensures easy adoption, two-level tailoring & roll-out

Scalable – has been used in thousands of projects of different size, complexity & type

Adaptive – standardisation and harmonisation while still adaptive in a smart way

European Commission

Who uses PM²?

10,000+ employees at the European Commission alone!

EU Institutions, Agencies & Bodies

Public Authorities

Academia
